

StealthMounts®

Charger Mounts

PROUDLY MADE IN THE UNITED KINGDOM

How to use

Place mount loosely on the charger making sure the mount is correctly orientated. Don't press in firmly yet. Remove and mount to wall or surface using suitable fastenings such as screws or rivets (not supplied). Place the charger against the mount and once aligned, press firmly to secure. Leave sufficient space between mounts for chargers intended to be stored, including access to removal.

Precautions

Do not over-tighten fixings. Check mount integrity prior to use and do not use if damaged. Harsh environments may reduce strength of mount. Mount does not guarantee safe or compliant storage of battery, local regulations must be observed where applicable. Fit in a suitable location where failure (such as broken mount) cannot cause harm or damage if battery falls. Do not use at height. Liability limited to MSRP of this product.
